JUDGE'S CRITIQUE

SUNDAY 15 MAY 2016

GOLDEN RETRIEVERS

PUPPY MIXED

1st Ms. Pellrud's **Doeland Cassius**

I like the head of this one, and his overall shape. Not co-operating with his handler, but his handler got the best out of him. I managed to see that he is sound on the move, and he looks like a very typical golden retriever youngster.

2nd Mr. Butt's **Doeland Bonnie**

Just 11 months old, coming along nicely. Angulation is not balanced, but correct for age. Quite positive on the move, with enough body and balance for age. A nice head, with pretty, feminine expression.

LIMIT MIXED

1st Mr. Butt's **Chiming Bells Eva of Doeland (IND)**

14 months old, again, balanced for age. Nicely bodied for a youngster. Depth of chest to length of leg nice proportion. Nice proportion of head, though this still needs to fill out, but very pretty and feminine.

2nd Mr. Butt's **Chiming Bells Zane of Doeland (IND)**

14 months old male, bit of a handful. Lovely temperament, nice build. Depth of chest to length of leg is good. Angulation balanced for age. Moves well, just needs to settle down a little. **RCC**

CHAMPION DOG

1st Mr. Butt's **Sh. Ch. Chimingbells Stealing the Show (IND)**

3 years old, lovely overall shape, lovely topline, well balanced angulation. Good bone and super feet, essential for a breed that has to work all day. Good head and expression. Lovely well set dark eyes, good mouth. On the move, looked as if working all day wouldn't be a problem, nice width of skull. Balanced angulation fore and aft. Nice depth of chest and good leg length. On the move uses hocks to provide drive. Good forward reach. Looked easy in profile

OPEN BITCH

1st Mr. Butt's **Chiming Bells My Dream Come True (IND)**

I like the overall proportions of this one. Chest to leg very good, nice topline, nicely muscled and balanced. Good head, nice dark eyes, very sound on the move, using her hocks well. **CC, BOB**

2nd Mr. Butt's **Doeland Abba**

Smaller size but still in proportion. Nice head and expression. Good topline. Angulation is balanced for her age. Another who is using her hocks well to provide drive. Could be slightly firmer in front.

COCKER SPANIELS

MINOR PUPPY MIXED

1st Ms. Taieth's **Flyaway Song of Norway**

5 months old Cocker puppy, who is EDIBLE! Everything is in proportion for her age, showing promise of being a wonderful adult. Beautiful ears, a little low at the moment, but when the head grows they will be in the right place. Beautiful head proportion, which echoes an adult head. Quite positive on the move, for such a puppy.

2nd Ms. Keshavjee's **Flyaway Mountain King**

5 months old blue roan, again a super puppy, very promising for the future, just time and a little more practice.

3rd Ms. Nudd's **Flyaway Peer Gynt**

Another lovely 5 month old puppy, who's soundness is evident on the move.

CHAMPION DOG

1st Ms. Taieth's **Sh. Ch. Pearkim Pittyaich at Flyaway (GB)**

2 year old male, super head, good topline. Very active tail, well balanced angulation, good depth of chest, down to the elbow, and on the move has plenty of drive. Good muscle in the back end, which he would need to put up a woodcock.

HUNGARIAN VISZLA

MINOR PUPPY

1st Mr. van Aardt's Jan **Smuts (ZA)**

I particularly like the dog. He has tight elbows already, which has been a failing in the breed for some time, slack elbows. Angulation and balance are spot-on for his age, chest has nice depth, but more to come. Well-proportioned head, which echoes what the adult head will be. On the move I can see a few positive steps.

LABRADOR RETRIEVERS

MINOR PUPPY MIXED

1st Mr. Butt's **Doeland Hilda**

In a word, WOW! What a lovely puppy! Very well balanced for age, lovely topline, well bodied, although obviously needs to firm up. Ideal for a baby, lovely head, lovely dark eyes, wonderful temperament. On the move, is actually already using her hocks to provide drive, and has beautiful forward stroke. I loved her.

PUPPY DOG

1st Mrs. May's **Ontulele Nosey Parker**

6 months, lovely overall make-and-shape. Balance and body correct for age. Nice lean muscle. Good depth of chest, lovely feet, essential for this breed. So straight and true on the move, using his hocks well. Sure he will have a good show career.

2nd Mr. Soomro's **Imani's Zeek**

9 months old chocolate, with a mind of his own. When he set to it, he is a lovely shape, and good angulation and balance for age. Nice muscle tone already, in a few strides he got straight, moves very well. Has a strong character.

3rd Mr. Butt's **Doeland Fazzo**

Another 9 months old, balance in angulation has just started to come in through growing, correct for age, but mean that on the move he was crabbing slightly. Nice overall shape, lovely head and expression, and time will bring maturity.

JUNIOR DOG

1st Mrs. Davis' **Ontulele Klever Klogs**

17 months, absolutely love the shape of this one. Correct depth of chest to leg. Good topline, nice tail set, angulation well balanced, super feet. All this topped off with a very typical Labrador head, strength of skull and muzzle, good underjaw, lovely eyes – quite a character. **RCC**

2nd Mrs. Apollon's **Ontulele Lunatic Express**

Another pleasing shape, again a good head, nice eyes, well set. Super pigment, well bodied, would just like the muscle a bit firmer. Quality bone, super feet. On the move the pastern is not quite as firm as it could be. The dog is balanced, just needs a little firmer muscle.

NOVICE DOG

1st Mrs. Davis' **Ontulele Klever Klogs**

as above.

2nd Mrs. Yoder-Maina's **Play Mor Special Edition at Imani (POL)**

This is a young chocolate dog, I like the size and overall shape of this one. Nice balanced angulation, good head proportions. Lovely eyes, nice and true on the move. Just needs to firm up a little.

3rd Mrs. Miller's **Black Velvet**

2 ½ year old black, nice shape. A little deeper in body than 1 and 2. Good head, well proportioned, lovely dark eyes, essential on a black. Nice balanced angulation, very steady mover, using his hocks.

GRADUATE DOG

1st Mrs. Shaw's **Peter Rabbit of Lian**

2 year old, good outline, well-muscled, balanced in angulation. Super feet, nice depth of chest to leg ratio. Good head, enhanced by well-set ears. Well shaped and good colour of eyes. Very smart mover, using his hocks well. **CC, RBOB**

2nd Mrs. Yoder-Maina's **Chablais Horacio at Imani (CAN)**

5 yr. old chocolate dog, heavier. Has many of the same qualities, balanced angulation, nice depth of chest, well-proportioned head. Movement a bit like the one before, using his hocks. Nice in front, just feeling the heat a little.

3rd Mr. Longstaff's **Andulus Black Prince**

Black dog, quite well muscled, nicely balanced in angulation. Good topline and tail set, very good feet, nice head. Good eyes, very dark, essential for a black. Good nose. To be super critical, would like the ears a little higher set. Moves very well, in accordance with the balance. Unfortunately the bite has gone.

LIMIT DOG

1st Mrs. Davis' **Ontulele Justthejob**

20 months, so much to like. Lovely shape, angulation balanced, appropriate for age. Good quality muscle already. Head well proportioned, with maturity there is more to come. Movement is good all round, using his hocks. Just needs to firm up all over, to complete the picture.

2nd Mr. Butt's **Doeland Bogart**

Nice shape, tends to stand a little stretched in the back sometimes, which detracts from the topline. Chest to elbow ratio good. Good width of skull, nice eyes, and on the move, made it look quite easy, enough drive and reach to do the job.

3rd Mrs. Davis' **Ontulele Dare Devil**

5 yr. old mature dog, well balanced for age, and good expression. Well set ears, well-muscled throughout. On the move, just today, could not match numbers 1 or 2. It's 5 years old, so the mouth may have gone with age, but its wry on the right hand side.

OPEN DOG

1ST Mrs. Shaw's **Ontulele Fortune Teller of Lian**

4 year old mature dog, just a little deep in the chest, angulation balanced. Very well-muscled, very good feet. He could do with being a couple of pounds lighter in weight. Due to that, on the move slightly throwing out his hind movement.

VETERAN DOG

1ST Ms. McFerran's **Tamarind Indica**

Lovely black dog, 11 years young. Still has good balance and angulation, lovely muscle tone, and super feet. He has either got a new battery in his tail, or he's very happy, because the tail never stops. Lovely clean, well-proportioned head, and I wish some of the youngsters could move like this.

2ND Mrs. Davis' **Ontulele Xan Xanadou**

Yellow, 8 years old, again in very good condition for age. Very well-muscled, a little too heavy on the waistline, but expected for 8 years. Nice head and expression. Covers the ground well on the move.

3RD Mrs. Davis' **Dual Ch. Tortilis Esoi at Ontulele**

Another 11 year old, but beginning to show his age a little. A little heavy, and although he covers the ground well, was moving much slower and steadier than the one in front. Lovely condition for age.

CHAMPION DOG

1ST Dr. MacDevette's **Sh. Ch. Andulus Gulliver's Boy**

6 year old mature dog, maintaining his good overall shape and balanced angulation. Very well-muscled, good legs and feet. Lovely well-proportioned head, nice eyes, good pigment. Well set ears, and moved with great enthusiasm. Absolutely oozing character.

2ND Mrs. Davis' **Ch. Ontulele Benjamin Bunny**

A mature 6 yr. old. Many similar properties to 1), in that he also has a good shape, well balanced angulation, good feet, but on the move just could not match the rear end of 1) today.

3RD Mrs. Davis' **Dual Ch. Tortilis Esoi at Ontulele**

As above.

PUPPY BITCH

1ST Mrs. Apollon's **Imani's Roxie**

11 months old, just entering the teenage phase, so angulation not balanced, but OK for age. Nice outline, good body structure, obviously muscle needs to firm. Quite steady on the move, very positive.

2nd Ms. Pinto's **Ontulele Naughty Butnice**

6 months old yellow, still not into full growth phase, so maintaining a very good shape at the moment. Nice head and expression, good bone and feet, which although she will lose this shape as a teenager, will grow back. Movement very positive for such a youngster. Good temperament.

3rd Ms. Muli's **Imani's Coca Ginger**

Litter sister to 1ST - Beautiful head and expression, good topline. Angulation not balanced, but correct for age. Beautiful feet. Mum assures me she is going on a diet, she could do with losing a couple of pounds.

JUNIOR BITCH

1st Mrs. Davis' **Ontulele Living the Dream**

14 months old, shape coming along nicely. Angulation not balanced, but correct for age. Quite well padded for age, rear end starting to firm up, which is helping her back end movement. Pretty head, good expression. Dry eye and lovely pigment. Very steady on the move, quite straight and true.

2nd Mr. Longstaff's **Andulus Iolite Girl**

Just one year old, nice head and expression. Pleasing shape for age, angulation coming along nicely. Muscle obviously still needs to firm all round. Movement steady for a year-old puppy.

3rd Mr. Longstaff's **Andulus Spinel Girl**

Again, one year old, shape and topline pleasing, as on number 1), muscle beginning to firm. Nice and true on the move, just not quite the hock action of 1). Still quite puppyish behind.

NOVICE BITCH

1st Mrs. Davis' **Ontulele Follie Bergere**

Mixed class here, for growth rates. This one has a nice shape, still needs a little more topline, but its fine for age. Underlying structure is good. Balance is correct for age. She has nice quality bone and nice feet. Her movement is appropriate for the bone structure.

2nd Mrs. Miller's **Wiggy-Wiggy Wagtail**

2 ½ year old, still not quite mature. Angulation is OK, muscle is OK, well-proportioned head. Nice eyes, well set ears. Moves OK, but I would like just a little more drive behind.

3rd Mr. Slavnov's **Doeland Dora**

18 months, quite a teenager. A little too heavy, could do with losing a couple pounds, but angulation is well balanced for age. Nice depth of chest, she has good feet and her movement is ground-covering, with a fair drive and reach.

GRADUATE BITCH

1st Mrs. Davis' **Ontulele Justintime**

20 months, like her overall make and shape. Quite well muscled for her age. Good feet, still to grow up a little on the legs. Head needs to fill a bit more. Well proportioned, with lovely dark eyes. On the move, very correct, and as she grows will start to use the hocks more.

2nd Mr. Butt's **Doeland Amy**

Good head and expression, but too heavy, possibly from maternal duties, which has affected her topline as well. Her angulation is balanced for her age. Her movement OK once she gets going. If her underline was tighter she could have been first.

3rd Messrs. Luvai's **Andulus Basalt Girl**

5 ½ years. Nice profile shape, I would like her head a bit broader. She is a tad narrow on the muzzle. She has balanced angulation, and good muscle tone, which gives her sufficient reach and drive to take this place. Everything is mature except her head.

LIMIT BITCH

1st Mrs. Yoder-Maina's **Playmor What if Costa Sterlina at Imani (POL)**

2 years. Definitely reached the standard as far as shape goes. She is nicely balanced angulation, good depth of chest, lovely head and expression. Tail never stops wagging. Nice feet, and on the move plenty of power behind as she is driving from the hocks. I'm sure she would work if asked to. **RCC**

2nd Mr. Butt's **AB1 of Byabani (PAK)**

Nice shape, nicely balanced angulation. A little less underline at the moment, possibly due to maternal duties. Nice quality bone, good head, nice expression. Using hocks on the move to provide enough drive.

3rd Mrs. Davis' **Ontulele Empress Eider**

4 years mature. Not the biggest, but very well put together. Balanced angulation, well-proportioned head, and nice eye. Good pigment, quite easy when she moved.

OPEN BITCH

1st Mrs. Davis' **Ontulele Greenwich Dream**

Larger chest, still within the standard. Overall shape is pleasing, balanced angulation, good depth of rib, good strong firm muscle. On the move has hocks to provide good drive, nice forward reach, which means in profile she had good stride. **CC, BOB**

2nd Ms. McFerran's **Ontulele Zebedee Zooda**

8 yrs. old, nice overall shape, balanced angulation, a tad close behind, but at 8 it's not a problem. Nice front action. Depth of chest to leg ratio is nice, well-proportioned head and good expression.

3rd Mrs. Davis' **Twende Ainokainen at Ontulele**

Slightly bigger, nice shape. Movement was OK, and she covered the ground well, but the front angulation is making her a little wide in front. Nice head, would just like it a little broader.

VETERAN BITCH

1st Mrs. Davis' **Ch. Ontulele Vision'n'Velvet**

9 year old bitch, nice shape, good angulation, just a little bitch, she still has strong hocks which she uses when she moves. Good front coming towards, I am just surprised she doesn't fall over, the way she wags her tail!

2nd Mrs. Davis' **Ontulele Tabitha Twitchet**

11 years black bitch, not showing her best, except for a little grey on the muzzle. Still maintains quite a good topline, balanced angulation, still using her hocks and has a decent amount of width between them on the move. Superb condition for her age.

3rd Mrs. Davis' **Duchess Nutella at Ontulele**

11 years old, lovely bitch, good shoulders, just a little straight in stifle, but it does not hamper her movement, which at 11 years is nice to watch. Typical head, lovely expression, beautiful dark eyes.

ST. BERNARD

CHAMPION DOG

1st Ms. Galot's **CH. Wizard of Oz Dogwatcher Paradise (NL)**

For a giant breed, he is very light on his feet. He is well balanced, plenty of muscle, which means he does not have to do much to move well. He has a lovely head with correct width of skull. Nice, relatively small eyes, good mouth, good depth of muzzle. I was pleased to award him the **CC**

CHAMPION BITCH

1st Ms. Galot's **CH. Youngstead Jozi (ZA)**

5 years old, very well put together. Balanced angulation, good muscle, good size, lovely head, and good depth of muzzle. Nice width of skull and lovely, relatively small eyes. On the move, she powered her way round the ring very easily.

BOXERS

LIMIT MIXED

1st Fam. Adams' **Sabeeka Anazaka**

9 year old bitch in superb condition, good firm muscle, especially in the loins, which is important for this breed. Good stifle, strong hocks, good shoulder angulation, and a well-proportioned head with a nice layback from nose to lower jaw. Good strong neck, again important for this breed. She powered around the ring like a junior. **CC**

OPEN BITCH

1st Fam. Adams' **Sabeeka Anazaka**

As above.

CHAMPION BITCH

1st Fam. Adams' **Ch. Contessa Poqueta**

Another lovely boxer bitch, correct topline, good depth of chest, correctly balanced angulation, good stifle, strong hocks and pasterns. Nice high crest to the neck and a beautiful breed typical neck, with correct layback from nose to lower jaw. On the move, she had power and elegance, as required from this breed.

2nd Mrs. Yarinakis' **Ch. Tilisuru Ol Akira of Bilty**

Another beautiful bitch, again with good angulation, strong muscle, especially in the loins. Strong, good rear pasterns, and another nice head, with correct expression and nice layback from nose to lower jaw. The difference between this one and the first, a shade deeper in the body through the tuck-up.

BULL TERRIERS

OPEN DOG

1st Mr. Grant's **Locoville Basket Case (GB)**

Just over 2 years old, with exceptionally good head, beautiful topline, solid muscle, which is an absolute must with this breed. Delighted to see a breed typical hind action, using his hocks well, and then showing a bit of the bull temperament. Coming towards, straight and true all the way, also has an exceptionally marked brindle coat, super dog. **CC, BOB**

CHAMPION BITCH

1st Mrs. Barnes' **Ch. Piketberg Awesome Suki (ZA)**

3 year old, again a super head, expression enhanced by two lovely eye patches. Nice strong neck, good shoulders, nice angulation behind. As with the dog, good muscles throughout. On the move, I saw drive and reach as befitting her breed.

STAFFORDSHIRE TERRIERS

PUPPY MIXED

1st Mrs. Brooks' **Woodstock Little Diva**

11 month old bitch, very nice head for size, correct ears, well used. Good topline, nice muscle all round for age. Angulation not quite balanced, but OK for age. Made the best of herself on the move with a nice amount of drive and forward reach. She should mature very well. **Bitch CC**

2nd Mrs. Van der Westhuizen's **Woodstock Whisky Mac**

11 month old male, absolutely full of himself, which gave his handler a problem, but he has a very good head, well set. Well used ears. Well shaped, very well-muscled, but because he was playing up, his movement was difficult to assess, but what I did see was good. **Dog RCC**

OPEN DOG

1st Mr. & Mrs. Ferguson's **Woodstock Red Royal**

18 month old red dog, with a superb head, well split mouth, nice eyes, good nose, well bodied. Super firm muscle, especially on the loins and thighs, and once settled, showed typical movement fore and aft. **Dog CC, BOB**

CHAMPION DOG

1st Mrs. Kirkcaldy's **Ch. Woodstock Rusty Nail**

Red dog with lovely head, wide split mouth, beautiful dark eyes. Well folded, well used ears. Overall proportions and balance very pleasing, super fit muscle, especially on the loins and thighs, which mean his balance and angulation on the move is breed typical, easy and ground covering.

OPEN BITCH

1st Ms. Tatton's **Rose Gold**

Nice black bitch, again good head, feminine expression. Beautiful ears, really well laid. Strong shoulders, strong rear end, super firmness, especially on the loin, so when she moved I saw typical rear action, and forward when coming towards me. **Bitch RCC**

CHAMPION BITCH

1st Mrs. Wood's **Ch. Hubbuls The Angel (GB)**

Another nice bitch, red, with correct ears, lovely split mouth, good shoulders, angulated rear end, underline good, extremely well-muscled. On the move I saw breed typical rear and front action, and she looked good coming towards.

SUNDAY VETERAN

1 st Fam. Adam's	Sabeeka Anazaka	Boxer
2 nd Ms. McFerran's	Tamarind Indica	Labrador Retriever
3 rd Ms. Taieth's	Sh. Ch. Pearkim Pittyvaich At Flyaway (GB)	Cocker Spaniel

Cocker Spaniel, 13 ½ year old cocker who looks much younger! Lovely head and expression, beautiful, correctly set ears. Good topline and balance of angulation. Good muscle tone for age. Moved well, like a 4 year old, rather than a 13 ½ yr. old.
