CENTENARY

ALL BREED CHAMPIONSHIP DOG SHOW

11 - 12 May 2019 – Judge: Stuart Mallard

Introduction

It was such a pleasure to be invited back, and a great honour to have the privilege of judging your Centenary Show. I wish to thank the officers and the committee for inviting me while at the same time congratulating them for such a well organised event. A lovely atmosphere prevailed throughout the weekend, thank you all for your sportsmanship. An excellent entry of dogs were exhibited and temperaments were of the highest order, the standard of handling was first rate in all but a very few instances.

The general standard of GSD's was decent for breed type and condition. Not too many exaggerated toplines, although weak hocks still need working on. The best would hold their ground in any country.

Labradors were also impressive, with many worthy examples of the breed on show. In some countries the show type and working type are fields apart; not so here, which is how it should be. However their skills are honed they conform to one breed standard.

It was lovely to witness everyone working together, and the mutual encouragement.

Junior handlers - These young people are the future and in my opinion they are an investment and time well spent.

Best wishes for the future, and above all, enjoy your dogs and this wonderful hobby we all share.
