“

It has been an amazing experience to judge in Kenya. I have found out that, together with veteran and experienced breeders, several newcomers, absolutely enthusiastic and anxious to learn more about dogs.

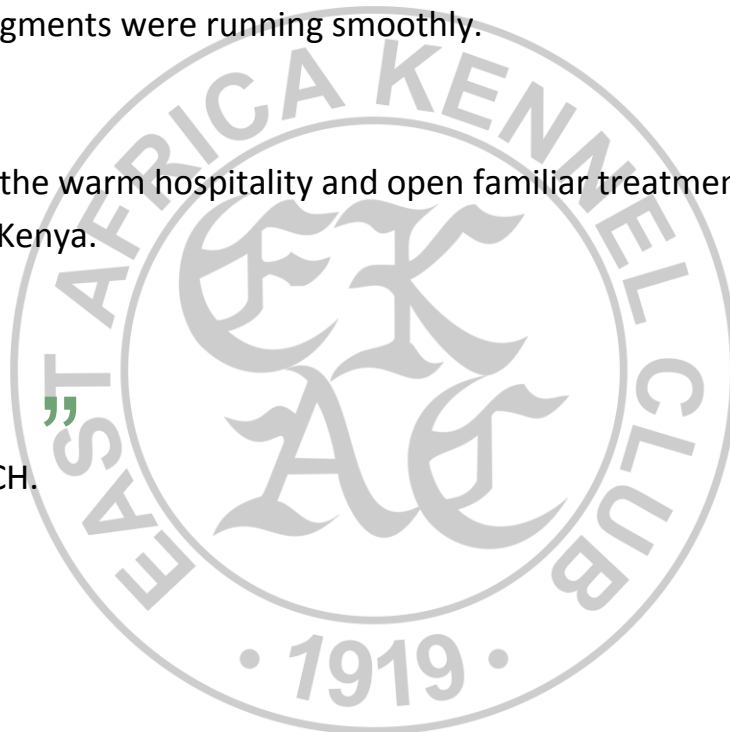

Organization was better than I expected and, by far, full with “Kenyan Spirit”, much more than in most of the countries I used to visit. I was enjoying a very efficient ring stewards help. Every one of them were always making my job much easier. They knew their job perfectly, and it made possible that judgments were running smoothly.

Congratulations!!

I must say THANKS for the warm hospitality and open familiar treatment. I have been enjoying every single minute in Kenya.

Again,

THANK YOU VERY MUCH.

NB Judge's critiques are noted verbatim, the judge sometimes uses idiosyncratic speech such as “hands and feet” meaning fore-, and hind paws.

Please revert back to us if you have any questions.
